

# Are You Stuck with CMMC Compliance? Not Sure Where to Start? Want to Jump Start your CMMC Compliance Journey?

## Plan - Understand - Move

Don't let uncertainty slow you down. CMMC Jumpstart will put you on the right path—before you commit your budget.

### THE CHALLENGE

Common Questions from Small Businesses

- ? Do we need CMMC Level 1 or Level 2?
- ? How much will this cost?
- ? How many people and resources will we need?
- ? What infrastructure should we deploy?
- ? Do we need GCC High? An enclave? An MSP? An MSSP?
- ? What should be in scope—and what can be out of scope?
- ? Should we invest in tools like Drata or Vanta first?
- ? Where do we even start?

**The uncertainty can cause companies to freeze—or spend significant money before they understand what they actually need.**

### HOW CMMC JUMPSTART HELPS

Focused Advisory. Practical Results.

- ✓ Determine whether CMMC Level 1, Level 2, or further analysis is required
- ✓ Determine access scope based on organizational needs
- ✓ Define likely in-scope and out-of-scope boundaries
- ✓ Define and compare architecture options before purchasing
- ✓ Evaluate cost, complexity, operational tradeoffs, and risk
- ✓ Recommend a target CMMC architecture and ownership model
- ✓ Provide executive and detailed technical reports
- ✓ Provide a roadmap that any service provider can use to continue the CMMC journey

**We help you answer the foundational questions first—before you commit your budget.**

## What makes us unique?

EXPERIENCE × OBJECTIVITY × BETTER OUTCOMES

### Decision First

We start with the management decision, not the checklist.

### Architecture Before Assessment

We define what should be assessed before the organization begins assessment work.

### Vendor-Neutral Guidance

We compare GCC, GCC High, enclaves, managed enclaves, internal build, and MSP-supported options.

### Executive Clarity

We translate technical complexity into actionable business decisions.

### CLEAR™ Method

A structured decision framework that drives confident action.

## The CLEAR™ Method

Clarity that drives confident decisions.

### CLARIFY

Define the challenge, scope, objectives, and decision criteria.

### LEARN

Discover the facts, environment, requirements, evidence, and constraints.

### EVALUATE

Analyze risks, gaps, alternatives, tradeoffs, costs, and opportunities.

### ADVISE

Present findings, options, recommendations, and consequences.

### RESOLVE

The customer makes an informed decision and determines the path forward.

Start → Discover → Analyze → Report → Decide

RIGHT ENVIRONMENT.  
RIGHT DECISIONS.  
BRIGHTER OPPORTUNITIES.

REDUCE RISK

CONTROL COSTS

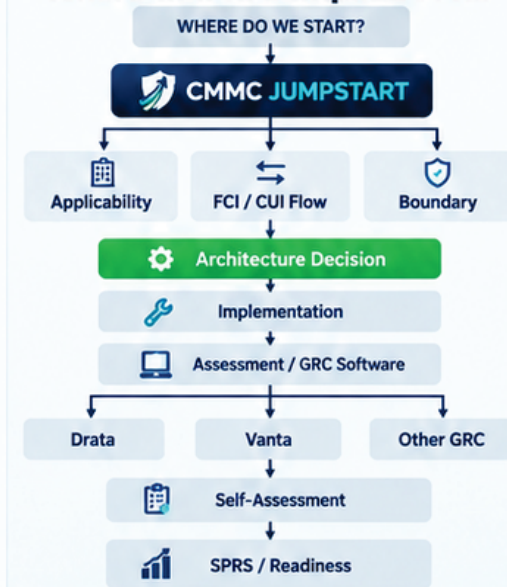

ENABLE GROWTH

ACHIEVE READINESS

## Where CMMC Jumpstart Fits

**Don't start with 110 controls.**  
**Start by deciding what those 110 controls should apply to.**

CMMC Jumpstart positions your organization for smarter implementation, cleaner scope, and better downstream assessment.
